### ABOUT US

NIKHIL TECHNOCHEM has been providing for sales & service of Thermax range of products to customers in Industrial & commercial sector from all over Uttar Pradesh since 1984.

We have helped industries, upcoming plants & projects by acting as their consultant for choosing the right utilities for process heating, water treatment, chemical treatment, air pollution, waste & effluent treatment.

We are working for providing solutions in the field of Utilities like, Hot Water & Thermic Fluid Oil, Steam Generation & Distribution, Compressed Air, Solar Power Generation, Energy Conservation, Pumps & Process Machinery , & also energy audits.

Our focus is on quality, efficiency, innovation, cost-effectiveness and our people – our customers and our employees.

We encourage leadership and entrepreneurship; The management team at Nikhil Technochem comprises of first generation entrepreneurs who are engineers having sound experience in the field of energy & fuel economy. We are working with leading engineering companies like Thermax, Kirloskar, Shell, Mather & Platt, SKF, CNP China, to name a few.

Over the years, we have worked closely with existing industries & green field projects, and their founders to execute their ideas into smart and efficient solutions & products.

We have selected designed & engineered Plants & equipments for optimum & efficient use. This has reduced overall installation cost & running cost. It has helped our customers to compete on overall lower cost of production or to maximize their profit. The automation & hassle free operation on utilities means, our clients can focus on building and expanding their vision and business.

We dedicate substantial time and resources on training new manpower, bring new innovative products. This ensures that we learn and experiment with existing, latest and upcoming technologies. This process equips us to help solve our customers problems quickly and efficiently.

Our vision is to provide efficient utility solutions & a company that provides superior quality services and develops products which are useful & meaningful.
